COUNTRIES IN EUROPE,
AMERICA AND ASIA

**WE
VACUUM
EVERYTHING**

**COSMETICS-
PRODUCTIONS**
Dust-free dosing of
powder ingredients

TASK

When dosing ingredients for creams into the mixing containers, dust may be generated as the ingredients are in liquid, powder or pellet form.

SPECIAL FEATURE

- | Two parallel filter units with two filter units of 48m²
- | Modular DS 6 series
- | Separate construction:
The filters are located indoors, the drive unit outdoors.

ADVANTAGES

- | Space-saving
- | Due to the separate design, the extraction system operates almost noiselessly during production.
- | Compressed air cleaning of the cartridge filters

OUR SOLUTION

Dust extractor DS 6 (tandem) with piping and suction funnel

- | KW: 3,0
- | Air: 5.000 m³/h
- | Pressure: - 32 mbar
- | Filter: 2 x 24 m²
Cartridge filter

WE VACUUM EVERYTHING

1

HANDMADE IN RIEMSLOH

If it says Ruwac,
then there's Ruwac inside.
All of our products for the
European market are produced
in Germany at our Riemsloh site.

2

INDIVIDUAL SOLUTION

We provide demonstrations
and advising on site!
For more than just vacuums.

3

HIGH QUALITY MATERIALS

A Ruwac vacuum delivers
outstanding, long-term extraction.
To make sure this is the case,
we use high-quality components
like GRP housing parts.

4

RESEARCH AND DEVELOPMENT

We are always conducting
research and development
so we can meet any requirement
with the best solutions

5

COMPREHENSIVE SERVICE-CONCEPT

Over 20 qualified service
technicians are available
throughout Germany to
ensure safety and maintenance
for your industrial vacuum.

6

INTEGRATED CONSULTANT

From conception to
commissioning in
compliance with
all standards and regulations.
