REPRESENTED **20**
IN MORE THAN
COUNTRIES IN EUROPE,
AMERICA AND ASIA

WE VACUUM EVERYTHING

BATTERY-POWERED VACUUM CLEANER

**Vacuuming with
customer's own battery**

TASK

When cleaning large storage areas, corded vacuums are out, simply because of the constant need to change the socket.

In some cases, however, the runtime of the battery-operated vacuums is too short at approx. 2 hours.

This is where a large forklift battery comes in handy.

SPECIAL FEATURE

- | Ruwac battery vacuum cleaner
- | Supplied with pre-separator

ADVANTAGES

- | Mounting of the vacuum cleaner on the customer's frame
- | Connection to customer's own battery (forklift battery)
- | 7 hours operating time

OUR SOLUTION

- | GRP housing
- | High-quality 48 V lithium-ion battery as energy store

WE VACUUM EVERYTHING

1

HANDMADE IN RIEMSLOH

If it says Ruwac,
then there's Ruwac inside.
All of our products for the
European market are produced
in Germany at our Riemsloh site.

2

INDIVIDUAL SOLUTION

We provide demonstrations
and advising on site!
For more than just vacuums.

3

HIGH QUALITY MATERIALS

A Ruwac vacuum delivers
outstanding, long-term extraction.
To make sure this is the case,
we use high-quality components
like GRP housing parts.

4

RESEARCH AND DEVELOPMENT

We are always conducting
research and development
so we can meet any requirement
with the best solutions

5

COMPREHENSIVE SERVICE-CONCEPT

Over 20 qualified service
technicians are available
throughout Germany to
ensure safety and maintenance
for your industrial vacuum.

6

INTEGRATED CONSULTANT

From conception to
commissioning in
compliance with
all standards and regulations.
