EXPERT SERVICE-  
TECHNICIANS WORKING  
CLOSELY WITH CUSTOMERS

REPRESENTED **20**  
IN MORE THAN  
COUNTRIES IN EUROPE,  
AMERICA AND ASIA

**WE  
VACUUM  
EVERYTHING**

## **PRODUCTION OF CDs**

**Separating solids from  
Separate liquid**

### **TASK**

When handling large quantities of polycarbonate (PC), from which CDs are made, it is unavoidable that granulate gets onto the floor.

At the same time, there is liquid on the floor.

Since the balls are small, hard and round, employees can slip on them. Therefore, the granules must be sucked up immediately and, if possible, separated from the liquid.

## SPECIAL FEATURE

- | Suction medium that is sucked up with liquid at different points is separated from the liquid.
- | The plastic balls get stuck in the strainer (chip basket) and the liquid runs into the 150 L collection container

## ADVANTAGES

- | Mobile suction cup with integrated perforated „sieve
- | Suction medium can be disposed of separately
- | Liquid is drained or can be pumped out

## OUR SOLUTION

### Chip extractor SPS 250 with sieve / 1.1 mm perforation

- | kW: 3,6
- | Air: 410 m<sup>3</sup>/h
- | Pressure: -230 mbar

# WE VACUUM EVERYTHING

1

## HANDMADE IN RIEMSLOH

If it says Ruwac,  
then there's Ruwac inside.  
All of our products for the  
European market are produced  
in Germany at our Riemsloh site.

2

## INDIVIDUAL SOLUTION

We provide demonstrations  
and advising on site!  
For more than just vacuums.

3

## HIGH QUALITY MATERIALS

A Ruwac vacuum delivers  
outstanding, long-term extraction.  
To make sure this is the case,  
we use high-quality components  
like GRP housing parts.

4

## RESEARCH AND DEVELOPMENT

We are always conducting  
research and development  
so we can meet any requirement  
with the best solutions

5

## COMPREHENSIVE SERVICE-CONCEPT

Over 20 qualified service  
technicians are available  
throughout Germany to  
ensure safety and maintenance  
for your industrial vacuum.

6

## INTEGRATED CONSULTANT

From conception to  
commissioning in  
compliance with  
all standards and regulations.
